<p>Language</p>	<p>The student usually makes response-oriented and limited use of English and may minimally address some requirements of a simulated teaching activity. The student can use different language functions but control of aspect and some grammatical structures may be weak.</p>	<p>The student has demonstrated a high degree fluency in a simulated teaching activity, although occasionally it may be strained, tentative or hesitant. They demonstrate sufficient accuracy, clarity, and precision to convey their intended message without misrepresentation or confusion. Their speech can be understood by native speakers unaccustomed to dealing with non-natives, even though this may require some repetition or restatement.</p>	<p>The student is fully fluent and accurate with no demonstration of error patterns in basic structures, although she or he may make sporadic errors, particularly in less-used structures or in high-frequency, complex structures, but not distracting to a native interlocutor nor interfering with communication.</p>	<p>Score: /4</p>
