

Virtual Private Network (VPN) Connection Setup Guide for Mac OS

This manual shows the procedures to set up a CityU VPN Client running on Mac OS. You should have the following items before you can establish a VPN connection.

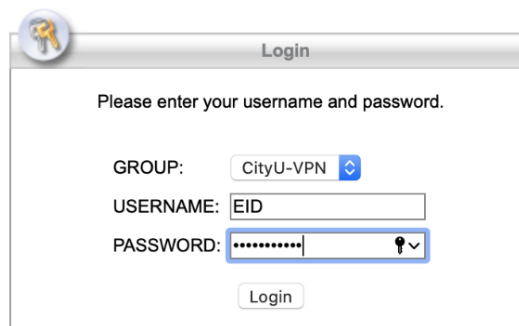

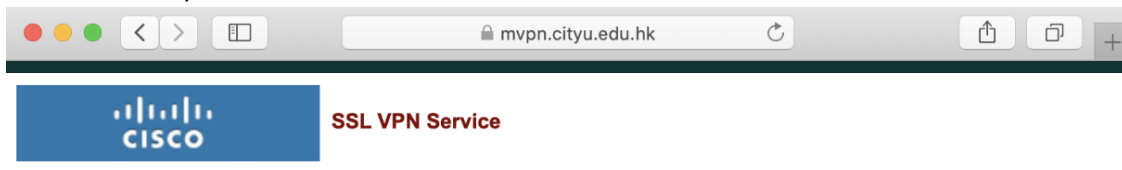

1. Internet connection such as your broadband or dial-up network
2. Network Connection Account and password

Step 1: Establish your Internet Connection

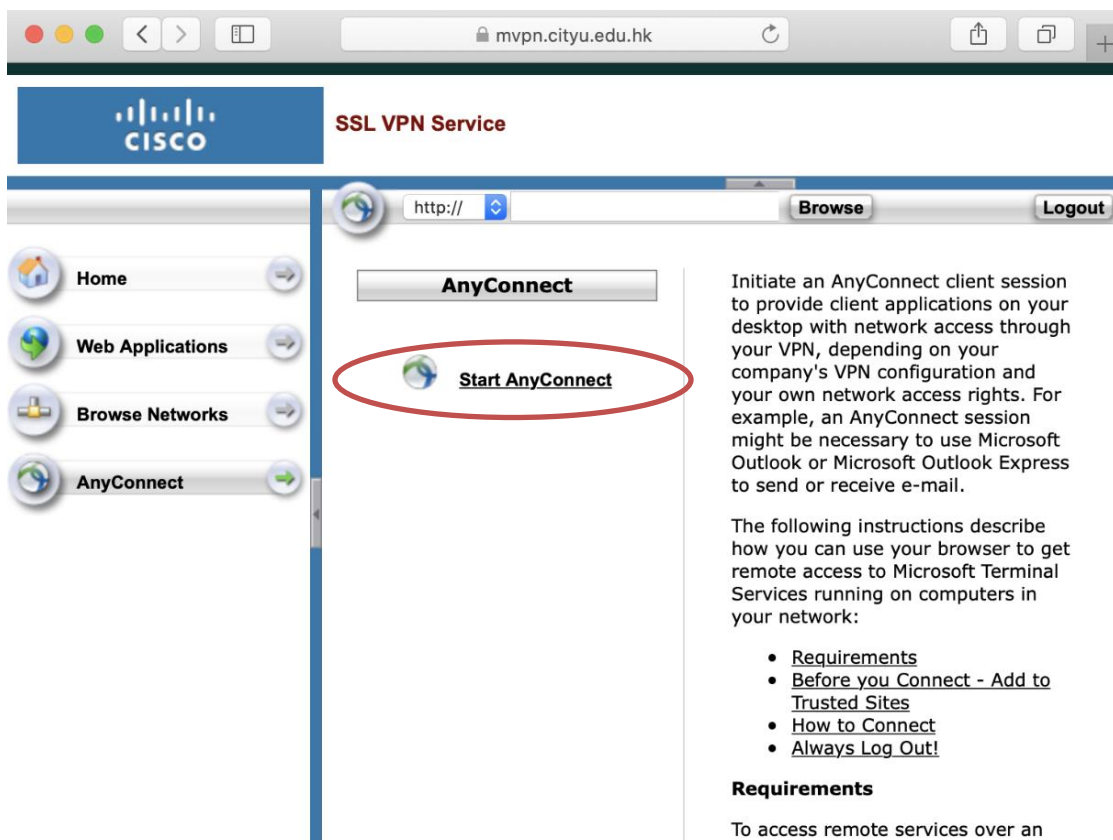

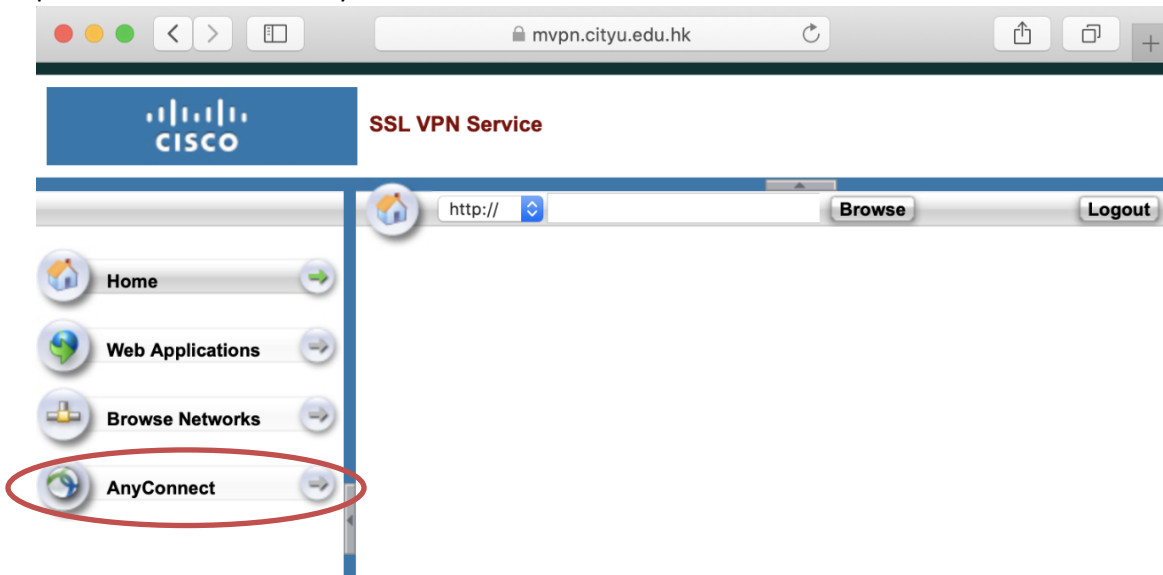

1. Apply your own Internet connection (such as broadband, 4G, etc.).
2. Follow the instructions provided by your ISP to setup your Internet connection. If you cannot access the Internet or having problems in setting your Internet connection, please consult your ISP.

Step 2: Install the Cisco AnyConnect VPN Client

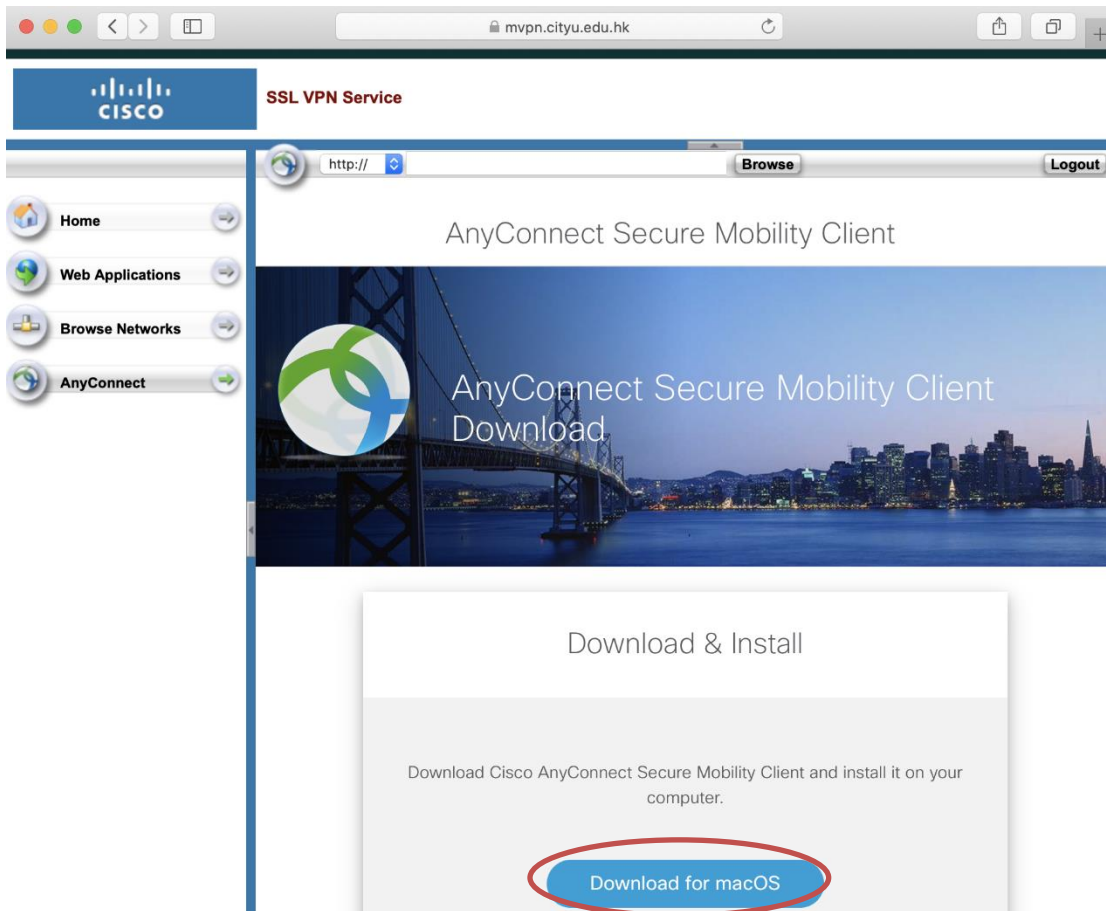

- 1) Use any web browser to access the URL “https://mvpn.cityu.edu.hk”. You will be promoted for your username and password:

A screenshot of the Cisco AnyConnect VPN Client 'Login' window. The window has a title bar with a key icon and the word 'Login'. Inside, it says 'Please enter your username and password.' There are three input fields: 'GROUP:' with a dropdown menu showing 'CityU-VPN', 'USERNAME:' with the text 'EID', and 'PASSWORD:' with masked characters '.....' and a toggle icon. A 'Login' button is at the bottom.

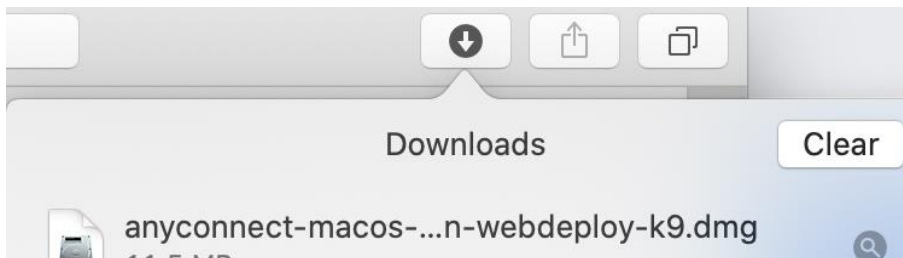

- 2) After successful login, the web will be shown as below, select “AnyConnect” on the left navigation panel then click “Start AnyConnect”:

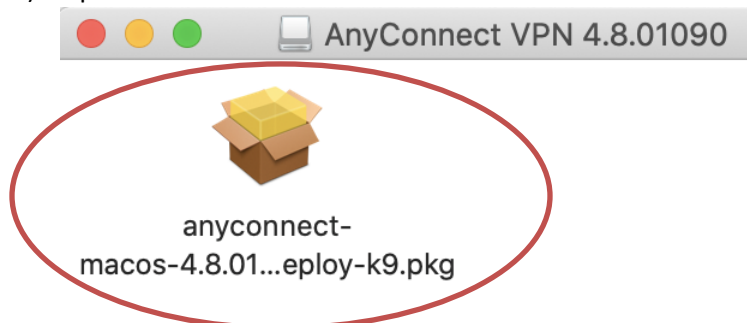

3) Click "Download for macOS":

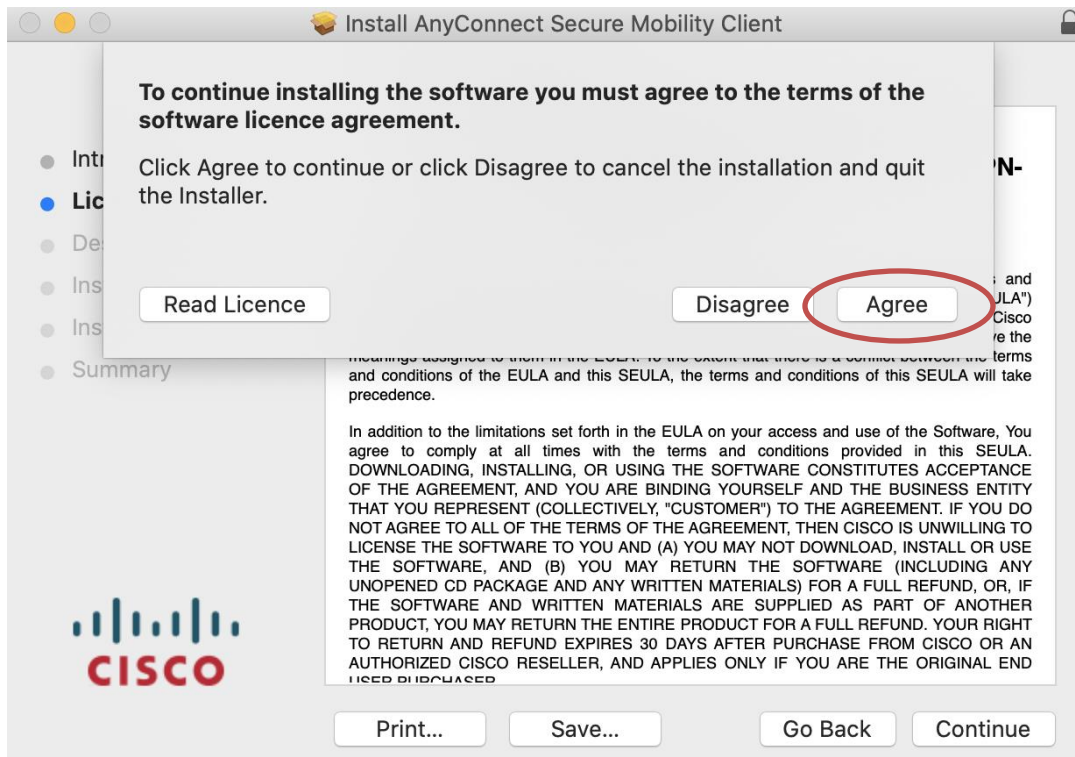

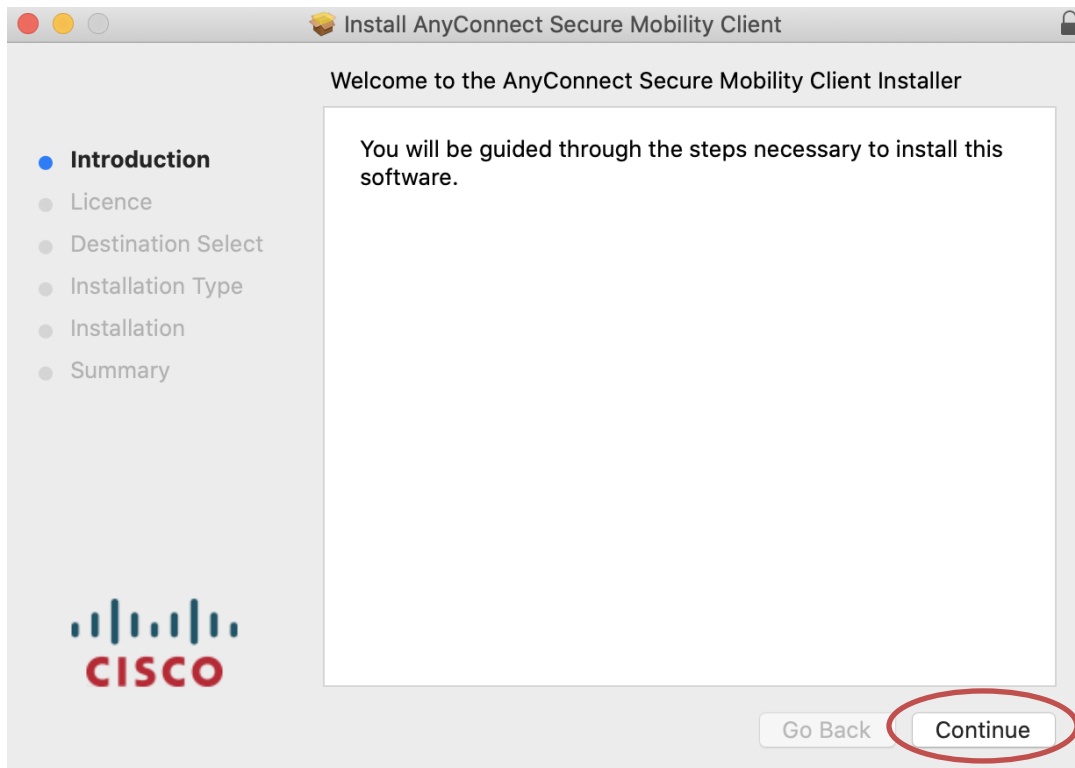

4) The download will be started.

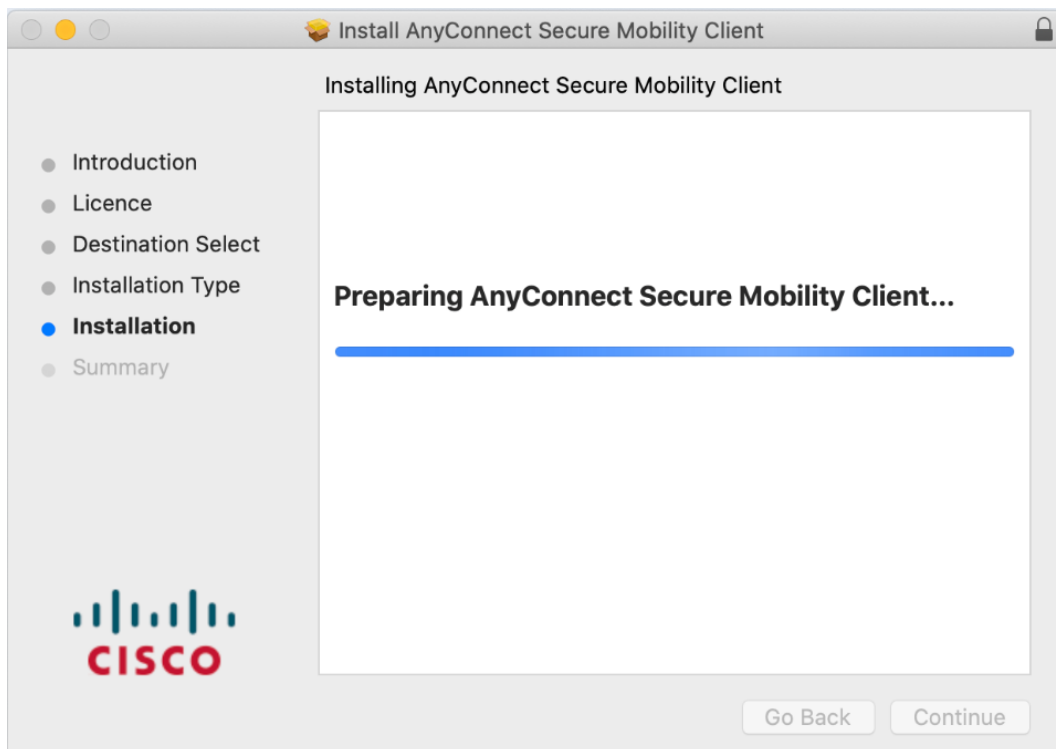

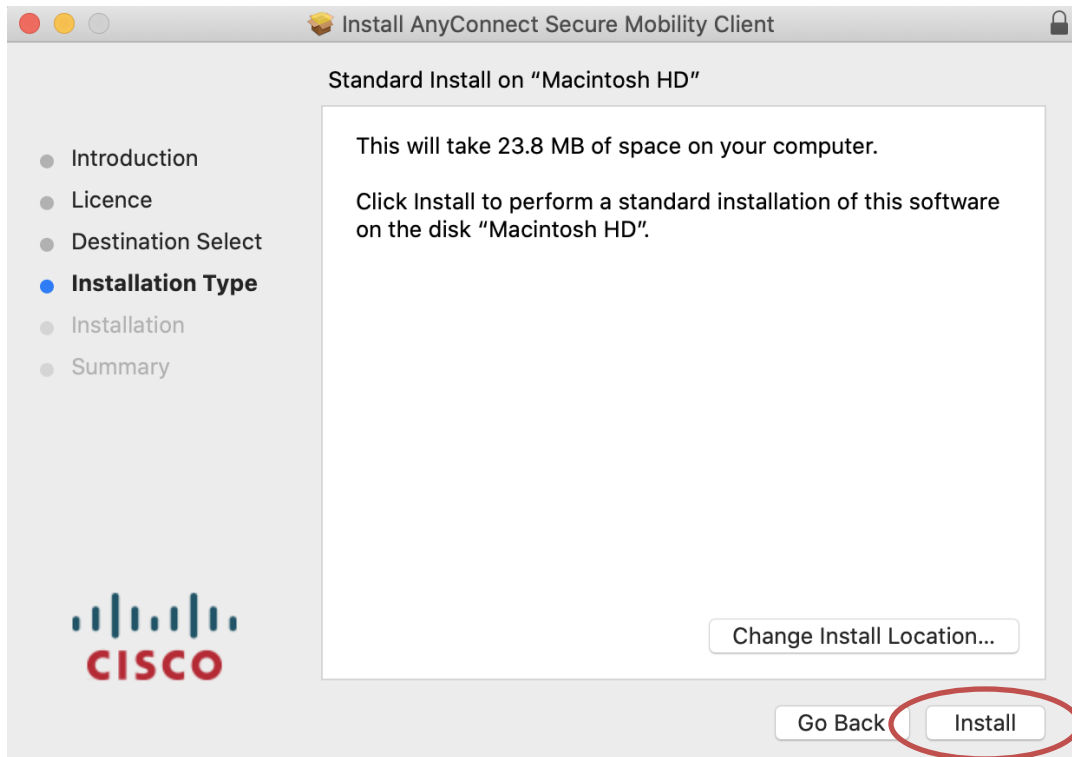

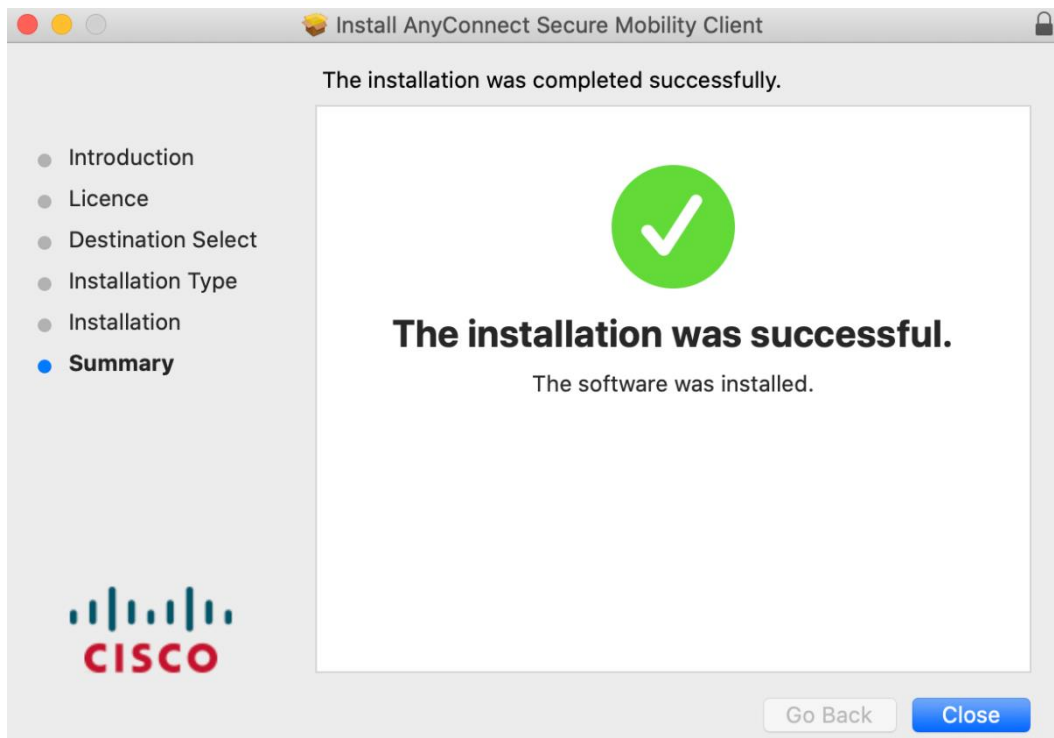

5) Open the location of downloaded files and execute the installer.

6) Press the "Continue" button and follow the on screen instructions to complete the installation:

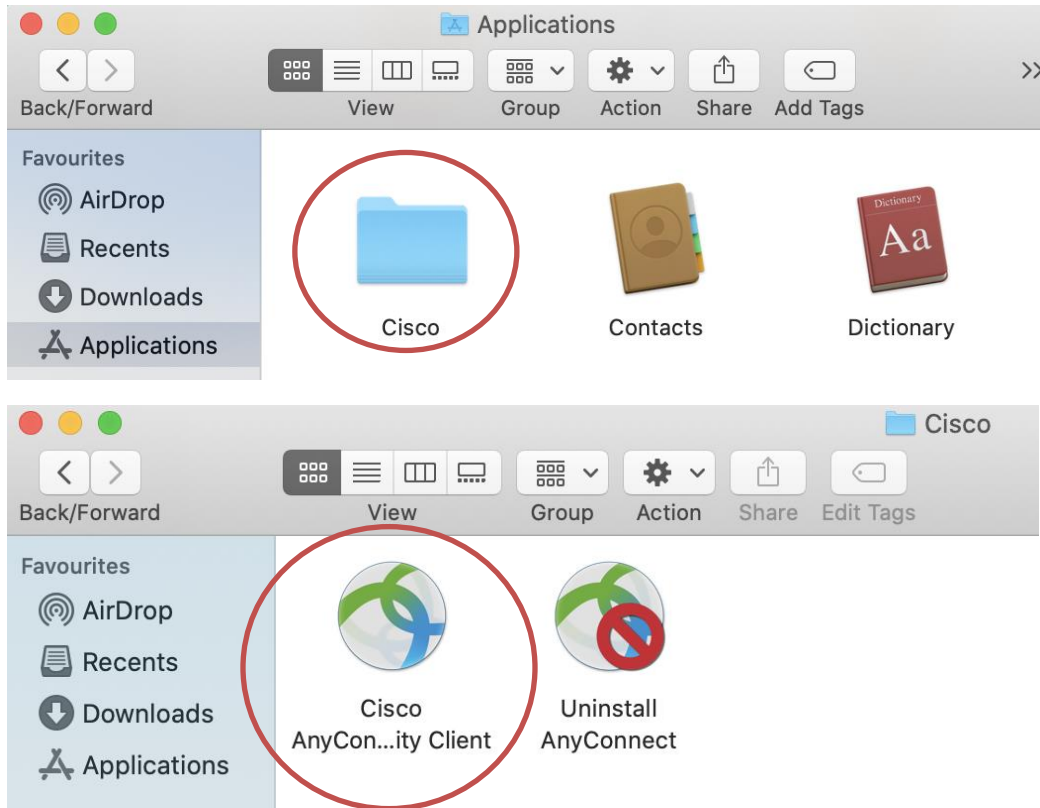

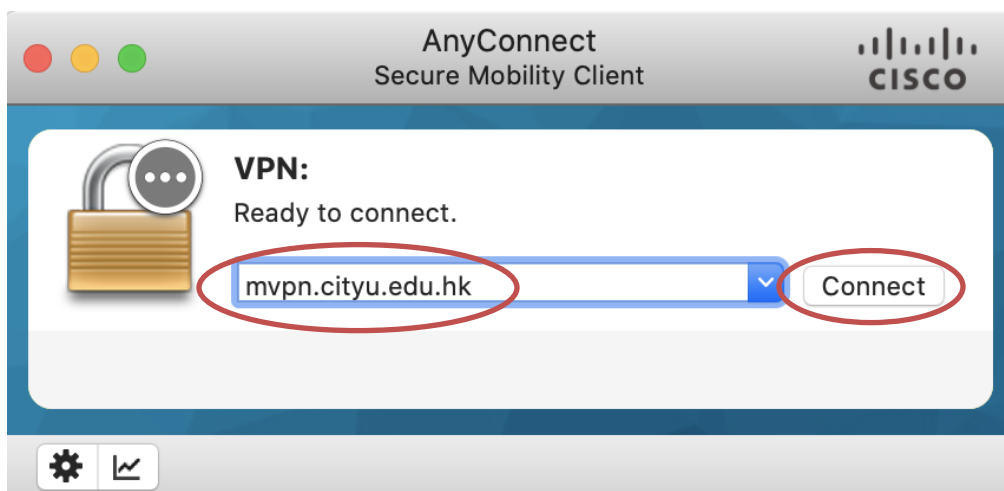

Step 3: Establish VPN connection

1. Launch the "Cisco AnyConnect Secure Mobility Client" (Finder -> Applications -> Cisco -> Cisco AnyConnect Secure Mobility Client) :

2. Enter the CityU VPN server "mvpn.cityu.edu.hk" then click "Connect":

3. Enter your EID and the network connection password to establish VPN connection:

Cisco AnyConnect | mvpn.cityu.edu.hk

 Please enter your username and password.

Group:

Username:

Password:

4. The VPN will be connected successfully.

AnyConnect
Secure Mobility Client

 **VPN:**
Connected to mvpn.cityu.edu.hk.

00:00:20 IPv4
