## Application for Transfer from MPhil to PhD Candidature (SGS04)

## Notes:

- (1) Students are required to complete Sections A to D and return the form to the Chow Yei Ching School of Graduate Studies.
- (2) For students who have been approved for transfer to a PhD programme, their MPhil study period shall count towards the PhD candidature. However, the period of PhD study shall not be less than 9 months from the transfer date. Upon transfer to a PhD programme, MPhil students should follow the study period as follows:
  - Students with a master's degree\* before transfer: 3 years/4 years (FT) / 6 years/8 years (PT)
  - Students with a bachelor's degree before transfer: 4 years (FT) / 8 years (PT)
  - \* For candidates who possess a master's degree, the programme duration shall be determined by Colleges/Schools/Departments. Colleges/Schools may devise their own policy for recommending 3 years or 4 years PhD study. For candidates commenced study on or after 1 September 2019, they must follow the 4 years PhD study.
- (3) The effective date for the transfer is normally the first day of the month following its approval.
- (4) Studentship awarded, if any, during the MPhil period of study would count towards the award period for PhD candidature, provided that the student is still eligible for the Studentship. Please note that PhD students will normally be granted studentships supported by UGC funds for a maximum of 3 years (irrespective of their entry qualifications), and the studentship award period should not exceed students' stipulated study period.
- (5) Please note that the normal coursework requirement for PhD students is 14 credit units. (PhD students in the College of Business are required to complete more credits.) Students are reminded to carefully plan their coursework study when they apply for a transfer to PhD candidature.
